

BA (HONOURS) IN BUSINESS MANAGEMENT

UNIVERSITY OF WOLVERHAMPTON, UK, PROGRAMMES

#ALUMNISPEAK

I, Muskaan Basra, would like to take the honour to introduce myself and my journey from Podar World College to the UK to date. I joined Podar World College and had my share of ups & downs, just like every other student, which left me confused about what I needed to do further ahead. After much debate, I realised I would like to do MBA and excel in whatever I do. The teachers at Podar World College have helped me throughout my journey. They are not only your teachers but also your best friends, which never made me hesitate to go to them if I was ever in doubt. I am so thankful to them as they have helped me with every stage, be it our assignment, presentation or anything else, and because of all their help, I managed to excel in my BABM program.

Meanwhile, I took up an internship with Beyond alliance, a luxury automation company, as a business development association. I could not thank Podar World College enough to help me with this excellent internship opportunity, as I did not want to waste my time even during the lockdown. Finally January 2022, I moved to the UK to do my MBA at the University of York.
