

BA (HONOURS) IN BUSINESS MANAGEMENT

UNIVERSITY OF WOLVERHAMPTON, UK, PROGRAMMES

Podar World College has helped me to understand myself and my surroundings. This college did teach me a lot of theories and practical knowledge like other colleges, but Podar World College taught me how to believe in myself and taught me how to be independent.

I always knew that I would join my family business, but Podar taught me how to grow the business while staying true to the company roots. I come from a real estate family background; while I work in the field of real estate, I also have my own startup called "Paddle and Canoe", which works in the field of government infrastructure; this was possible due to the in-depth learning lessons and industry leader conversation sessions held by Podar World College which allowed me to understand what all factors are needed for a startup.

BA (HONOURS) IN BUSINESS MANAGEMENT

UNIVERSITY OF WOLVERHAMPTON, UK, PROGRAMMES

For me, Year 2 was crucial due to the high research required, and the modules really helped me build upon my research skills, which were my weakness before joining Podar World College.

Another essential part of this journey was the "International Project" in year 1, a competition held by the University of Wolverhampton, which I won. It helped boost my self-confidence and allowed me to participate more in college events.

I have realised that Podar is more than a college; it is a family.
