

BA (HONOURS) IN BUSINESS MANAGEMENT

UNIVERSITY OF WOLVERHAMPTON, UK, PROGRAMMES

#SUCCESSSTORY

In my perspective and experience, BABM Enterprise is the one and only curriculum a student can study if they want to learn and feel how the Business World works, nose till toe. As I embark on this journey at Podar World College, level 6, I am very much looking forward to my future. Choosing Enterprise has helped me set a clear vision and aspirations of what I want to achieve in my time in this college and after. Hoping to graduate with good grades, proceed to the completion of my MSc, work and gain experience at a professional level and finally entryway to the world of business. It has helped me set this plan for the future and gives me a sense of motivation and aspiration to achieve every goal I've aimed for. There's no better place to start it than Podar World College. I am excited to see the journey I embark on and how it moulds me into the person I am required to become to fulfil my goals.
